## **Explanation of the application form for the primary school:**

You can register your son or daughter at the primary school of your choice during the entire school year.

By completing, signing and submitting this registration form to the primary school of your first preference, the registration of your child is a fact.

From the moment that your child is 5 years old, you as a parent (s) or the legal representative can register your child by sending in the completed application form for primary school.

On the Application Form for the primary school, only basic information is requested, relevant for the admission and the possible allocation of a school place. In addition to the name of your son or daughter, date of birth and place of residence, you must enter your name and place of residence and telephone details.

If the child is an orphan, we request that you clearly state this on the application form, so that we are aware of that it concerns an orphan child.

You should also give three primary schools in order of preference, and you will indicate why you want this school.

If you register your child in time by sending the registration form, you will receive a message within 30 days whether he / she has been admitted to the Yahya Peace Foundation's structural study grant.

As soon as you have received notification that your child has been admitted for a scholarship, the actual registration will follow in a comprehensive intake where more personal information is requested that is important for the proper care of your child.

See our website; [www.yahyapeacefoundation.org](http://www.yahyapeacefoundation.org) for more information about admission criteria of the scholarship.

Only the legal representative is authorized to fill in and sign the application form. Registration is possible during the entire school year.

If you have any questions, do not hesitate to approach the Admissions Board, of Yahya Peace Foundation, by sending an e-mail. [info@yahyapeacefoundation.org](mailto:info@yahyapeacefoundation.org)
